Education

- **Sousse Polytechnic School** 2024-Present
2ND Year Data science Engineering Student Polytechnic School of Sousse
- **Faculty of Sciences Gafsa** 2023-2024
Degree in Automation and Industrial Computing
- **Preparatory Institute for Engineering Studies Gafsa** 2020 - 2022
Classical Preparatory Cycle

Academic Projects

- **D'TRIP: Social-Cultural Project:** Aimed at helping diabetic children manage their condition through social events.
- **Machine Learning:** Global Happiness Analysis: Analyzed World Happiness Report to predict scores using regression and clustering, conducted in a team of two, with results published in a scientific article.
- **UI/UX Design:** Autonomous Taxi App: Designed the UI/UX of an autonomous taxi app in collaboration with a teammate, using Balsamiq and Figma, incorporating personas and empathy maps.
- **.NET Project:** Event Management: Developed in a team of two a Windows Forms application to manage events, invitations, and reminders.
- **Android App Development:** Weather App: Developed a Weather app using Android Studio with Jetpack Compose and Firebase to deliver a responsive UI and real-time weather data updates.

Internships

- Telecommunications Infrastructure Project: Fiber Optic NGN Systems** august 2025
Tunisie Télécom – Centre Service Clientèle El Kef
 - Interventions sur les réseaux NGN et analyse de la plateforme MSAN.
 - Observation des étapes d'installation et de test de la fibre optique, avec acquisition de notions sur la transmission du signal.
 - Soutien aux équipes techniques dans le service client et la maintenance du réseau.
- Renewable Energy Project: Photovoltaic System:** Feb 2023 to May 2023
Eco Solaire Gafsa
 - Supervision de l'installation d'un système photovoltaïque raccordé au réseau, conforme aux normes STEG.
 - Collaboration à l'étude de site, au dimensionnement du système et à la planification du raccordement.
 - Rédaction d'un rapport d'analyse avec recommandations pour l'optimisation et le suivi.

Certifications

- CCNA1** 2024
◦ Cisco
- Introduction to Cybersecurity** 2025
◦ Cisco
- CyberOps Associate** 2025
◦ Cisco

Technologies

Languages: C++, C, Java, Python, PHP, JavaScript

Technologies:

- **Web Frameworks:** Symfony, Node.js / **IDEs** **Tools:** PyCharm, VS Code, Spyder, Eclipse
- **Mobile/App Development:** Flutter, Android Studio, Unity
- **AI/ML Libraries:** TensorFlow, Keras, PyTorch
- **Big Data:** Hadoop / **Databases:** MySQL, SQLite
